Notes:

Musculoskeletal:

Nancy Tortorici-Dunham is returning for a recheck of injury(s): fracture of the right hip, plan urgent orthopedic with pt.

Hip Pain:

Work Status History: patient has been working transitional duty. Authorization is pending.

Review of Systems

Genitourinary: no missed menstrual period.

Musculoskeletal: joint pain, muscle pain, back pain and night pain.

Integumentary: Reviewed and found to be negative.

Neurological: Reviewed and found to be negative.

Physical Exam

Constitutional: well appearing and well nourished.

Head/Face: Normocephalic and atraumatic.

Eyes: conjunctiva and lids with no swelling, erythema or discharge.

ENT: No erythema or edema of the external ears or nose.

Neck: The neck is supple and symmetric with midline trachea and no masses.

Pulmonary: no increased work of breathing or signs of respiratory distress.

Abdomen: soft, non-distended, and no tenderness.

Musculoskeletal: Normal gait. No tenderness or swelling of extremities.

Range of

motion is within normal limits. Normal muscle strength and tone. THE SKIN IS INTACT

NO LESIONS NO ERYTHEMA , NOR DRAIANGE. THERE IS TTP, OVER THE RIGHT HIP LATERALLY

THIGH IS SOFT SLIGHT TENDERNESS OF THE RIGHT KNE 5/5 DF, NO CALF TENDERNESS O

NSQUEEZE, ALSO SENSATION IS INTACT TO TOUCH .

Shoulder: Appearance normal. No deformity. No tenderness. Full range of motion.

Strength normal. No signs of impingement.

Upper Arm: Appearance normal. No deformity. No tenderness. Full range of motion.

Strength normal.

Elbow: Appearance normal. No deformity. No tenderness. Full range of motion.

Strength normal.

Forearm: Appearance normal. No deformity. No tenderness. Full range of motion.

Strength normal.
